

**Sensitive document?... Send it securely!**

### Easily Encrypt & E-mail Your Formulater Forms:

- ◆ **Secured document distribution** – E-mail is like mailing a postcard, Attach Plus is like delivering documents via an Armored Truck.
- ◆ **Encryption made second nature** – Installed and used immediately, less than one-minute learning curve.
- ◆ **Trust** – Recipients see tangible results of your dedication to securing their data.
- ◆ **Increase productivity & savings** – Exclusive “Print to Attach & Encrypt” feature allows you to e-mail sensitive documents instead of printing and postal mailing.
- ◆ **Low Cost** – Using Adobe Acrobat on each workstation for encrypting documents is cost prohibitive, Attach Plus is priced with your limited IT budget in mind.

### Just Three Easy Steps:

#### **1. Choose File -> Print -> Attach Plus E-mail PDF**

The screenshot illustrates the workflow in three steps:

- 1. Choose File -> Print -> Attach Plus E-mail PDF:** A screenshot of the 'Formulator Filler 3.0' application. The 'File' menu is open, and the 'Print...' option is highlighted with a red arrow. The 'Attach Plus' dialog box is open, showing 'Attach 1 file to:' with 'Existing E-Mail' selected. The 'Send using filename:' field contains 'Account Transfer Form'. The 'Password protect' checkbox is checked and highlighted with a red box. The 'Attach' button is highlighted with a red arrow.
- 2. Attach:** A 'Set Encryption Password' dialog box is shown. It contains fields for 'Recipient password:' and 'Confirm recipient password:'. A red arrow points from the 'Attach' button in the previous step to this dialog box. A padlock icon is shown next to the text '128-Bit Encryption'.
- 3. Encrypted PDF:** A screenshot of an email client window titled 'Account Transfer Form (Secured by Attach Plus)'. The email body contains the text 'Bob, I have included the Account Transfer Form for you to fill out'. The attachment icon is circled in red, and the text 'Account Transfer ...' is visible below it.
