DESCRIPTION

Converting your paper forms to digital has never been so easy!

Formulator 3.0 Pro is your complete solution that enables organizations and individuals to convert any paper form to an electronic form and automate form filling and data management in one powerful software program. With one of the most user friendly interfaces available in the electronic forms software category, Formulator 3.0 Pro creates an easy environment for anyone to create digital forms from any kind of paper form.

BENEFITS:

- Fill out and print forms electronically
- Import data from any database format
- Solve field dependencies with arithmetic zones
- One of the most efficient form software programs available
- Increase productivity by automating form filling
- Drastically cut the high cost associated with filling out forms by hand
- Free Tech Support for Registered Users

KEY FEATURES:

- Multiple Document Interface
- Accepts multiple page forms
- Scanning and image import using grayscale or color
- Page adjustment feature for skewed forms
- New zone type "Formula" for arithmetic dependencies
- Multi-line text fields with adjustable line pitch
- Scale-to-gray feature for better viewing quality
- Completely overhauled database interface
- Printing multiple records in one step
- Free 5 user licenses for Form Filler 3.0 (included with full version program)
